

# FETS RESOURCE ADDITIONS IN 2010

---

## Documents and External Links

### NEI Support Project

- Proposal for QA of preliminary 2008 NEI fire emissions data and a reporting tool for FETS data. [PDF](#)
- Timeline for the remaining tasks and official NEI milestones for Fall 2010. [PDF](#)
- A flowchart of the protocol outline for building comprehensive Emission Inventories in the FETS. [PDF](#)
- The latest acquisition status of FETS users' 2008 fire data. [PDF](#)
- Webinar on the use of online NEI support tools for FETS users reporting 2008 fire activity. [PDF](#)

### Future Development Ideas and Proposals

- Level 2 FETS EI development plans for 2010. [PDF](#)
- Protocol outline of 2008-10 fire EI's for use in air quality analysis and NAAQS/regional haze planning. [PDF](#)
- FETS work plan outline for 2011. [PDF](#)

### Technical Resources

- Presentation by Tom Moore on the status of WRAP and a background on developing a fire EI protocol. [PDF](#)
- Agricultural fire emissions methodology review and application to 2011 EI work. [PDF](#)

### Related Fire Research

- Report by Amber Soja on using NASA satellite data to develop fire emission estimates for the NEI. [PDF](#)
- Presentation on the use of GEOS-Chem to parameterize plume rise. [PDF](#)
- Presentation by Zac Adelman on applying fire EIs to chemical transport models. [PDF](#)

### Related External Links

- List of Canadian fire resources. [RTF](#)

## Website Additions

- Added a User Management page. [Link](#)
- Added a new section to the website, NEI Support. [Link](#)
